Dear Peter:

I don't have alot of time to write because I'm at work.

Anyway's Heather had a wonderful time and is continuing to eat the proper foods, taking her vitamins, oh yea and having some junk food too. She has changed some what for the better. I think by sending to the workshop it not only helped with her acting abilities but also her behavior. I would like to know if there are any openings for the November Mini Workshop because she indicated she would like to attend. Also, we have discussed about the Assistant for next summer but we haven't made a discission as of yet. If possible could you give the dates for next summer. I must say I think it was a great experience for her and she did idead have a great time. When she did come home she said I wish I was at the workshop because was unhappy being home. Everyone in the workshop got along with each other and no one made fun of anyone or what that person liked to do or even what they said. Where back in school that's all the kids do. But that not only at her school but everywhere. That's the way of life is today which is to bad. But she has taken control over what other people say and do and will confront them. At this time I would like to Thank You for choosing Heather to attend the workshop and hopefully she does continue. She does have a great personality and does make the most out of everything she does. Thank you again and hope to here back from you soon.

Very truly yours,

Julie A. Rackliffe
