

Dear Peter Sklar

thank you so much for an awesome workshop! I learned so much in only a week! I showed my parents my notes I took and thought it looked cool. I loved all of the classes but especially Ben Cameron's class. It was so inspiring to learn from professional people. Also I loved learning about the right foods to eat! When I got home I drank more water and ate more organic foods like fruit! I also learned responsibility which is very important in life. I had to make sure I packed everything in my backpack every morning and had to make sure I was in the right place at the right time. I also had to remind my chaps to go to the nurse to take my medicine. I was so happy to have the opportunity to go to the workshop and learn about cool and important things in the professional world. Now I know more about the professional world! Thank you for a great week! It was so fun and inspiring!
