Dear Peter and the Beginnings Workshop staff,

When my daughter Breck stepped off the plane from New York, I noticed an immediate difference.

Her skin was glowing and her eyes were shining brighter than usual. When we got in the car she told us all about her experience there and still talks about the chaperones and her classes weeks later. Not only did she soak up a lot of valuable training she also came back wanting to eat vegetables and soy milk! I wanted to write and say thank you for the opportunity you gave us and for all of your hard work arranging everything. We will use the resume and all of the information she recieved to pursue any acting for her future.

Thank You,

Amanda Terry
