Hi Peter! I just wanted to send a note of thanks. My daughter , Paige Manning, came home excited and motivated. She seems very happy and she says she feels healthier. I think she looks radiant. The showcase was wonderful. I can't begin to thank you enough for this great opportunity. She was so excited to share all the wonderful things she learned. She is splitting at the seams hoping that she is invited to a mini workshop or even back as an assistant. I feel the whole process of getting ready for the workshop and all the wonderful instruction during the workshop has her rounding the corner from people telling her she seems to have a gift, to actually believing it for herself!

I want to thank you Peter, your staff, the teachers, counselors and assistants for creating an atmosphere for creativity and growth. In such a short amount of time, I can see that Paige has grown and changed her mindset. She is more confident, focused and excited about continuing a healthier lifestyle. So, many thanks to all involved in creating such a positive change in Paige.

Forever grateful,
Shannan Manning
