

9/10/06

Dear Peter,

Thank you so much for giving me an incredible experience at Beginnings! I had a lot of fun and I wish it could have lasted longer!

When I got home, it took me many days to tell my parents about all the exciting activities at your workshop. One of my favorite classes was songwriting with Athena Reich. The other kids and I wrote that song about you that we performed on the last night. Attached are the lyrics- I thought you might like to have them!

I really enjoyed my coaching sessions with Brian Hotaling. He was an excellent teacher and I'm glad that I got him as my coach! Brian has taught me a lot about acting, and I'm even going to try out this week for a part in my school play (which is "High School Musical"). I think it will be very exciting, and I've definitely gotten better at acting since I went to your workshop! The chance to act in New York City was something I will never forget - it was really great!

Dance lessons for me have started again in Brookfield, CT and I spent a long time telling Doreen all about my week at Beginnings. She loved hearing my stories! She even said you may be visiting our studio again this fall.

Thank you again for everything you and your teachers did for me this summer!

Your Friend,

Laura
Daniska
