Dear Peter,

Susan and I would like to thank you for inviting Chelsea to the recent workshop in London. Chelsea had a fantastic time and much of that was due to planning, preparation and execution by you and your staff. Her oral and photographic accounts of the workshop only scratch the surface of the value of the workshop.

With each workshop, mini-workshop and the overseas trip Chelsea gains more confidence (already high, in her Dad's mind at least!). She looks forward to meeting old friends and new, but, with a tip of my hat to you, looks forward to the lessons taught by you at the workshops.

In addition, I thank you for your assistance in choosing the "Nicaraguan" Monte Cristo. It was enjoyed.

Sincerely,

Scott & Susan File
